Batch work and plan ahead, having items available outside each patient room.

Sanitize hands.

Put on first pair of gloves.

Remove the lens protector liner from the front side of the lens cuff.

Secure the lens cuff by aligning the center hole over the center attachment post on the helmet.

Attach the left and right side lens cuff mounting holes over the left and right side attachment posts of the helmet.

Tip: The lens cuff will click when it is properly secured.

Lift the cuff flappers to rest against the foam pads at the ends of the comfort strip.

Insert the power cord connector into the battery.

Check the LED lights to ensure the battery is fully charged.

Adjust fan speed to comfort.

Secure the battery to the belt using the battery clip.

Secure the belt around the waist.
### Helmet

13. **Turn** ratchet knob counterclockwise to loosen the headband.

14. **Hold** the helmet near the rear headband with one hand, pull down on top of the lens cuff with the other.

15. **Place** the chin into the lens cuff while pulling the helmet over and down on the head.

16. **Turn** the ratchet knob clockwise to tighten the headband.

17. **Slide** the fingers around the cuff under the chin to ensure slight tension.

18. **Check** for proper fit, ensure:
   - The cuff flappers are perpendicular to the head
   - The bottom of the headband rests 1/2 inch from eyebrows
   - LED indicators are in your peripheral vision
   - The cuff flappers are 1/4 inch from the temples

19. **Tip:** If the headband is not in an appropriate height, doff, adjust the headband height position, and redo.

### Entry

20. **Put on** gown outside room.
   - Open-end **faces** your back.
   - **Tie** the back of the gown.

21. **Sanitize** first pair of gloves.

22. **Put on** second pair of gloves.

23. **Sanitize** second pair of gloves.

24. **ENTER** room
   - **DO NOT enter** the room if you do not achieve a proper fit of the CAPR system.

25. **Do not** touch or re-adjust CAPR system inside the room.
