**Putting PPE On (PAPR)**

### What You Need
- Coveralls
- PAPR system
- Inner gloves
- Outer gloves

### Gloves
1. **Batch work** and plan ahead, having items available outside each patient room.
2. **Sanitize** hands.
3. **Put on** first pair of gloves.

### Adjust Helmet
4. **Secure** the belt around the waist.
5. **Secure** the battery on the left side of the belt.
6. **Connect** the helmet to the battery.
7. **Check** the LED lights to ensure the battery is fully charged.
8. **Put** helmet on head and size to fit by turning ratchet knob to adjust the headband.
9. **Adjust** fan speed to comfort.
10. **Disconnect** the battery.
11. **Take off** the helmet and place it inside the PAPR hood.
12. **Ensure** the white HEPA filter is on top, the helmet is inside filter pouch, and the adjustable knob is outside of filter pouch.

### Put on Hood
13. **Set** the assembled PAPR hood aside.

---

*Sanitize hands.*

**Put on Hood**

12. Slide the helmet into the hood until it snaps in the center hole. Snap helmet into the hood on the left and right side snaps of the face shield.
